GESELLSCHAFT DEUTSCHER CHEMIKER

Become a Member in a dynamic network!

About 30,000 members contribute towards making the German Chemical Society (GDCh) a strong and dynamic scientific organization.

Become a member and profit from an expert society distinguished by comprehensive services, high network activities and continual growth!

GDCh-Membership Tailored to your Needs

Student Member/ Member in Vocational Training

For students of chemistry and related fields until completion of their doctoral degree and other individuals who are currently in vocational training or high school and are interested in chemistry and the molecular sciences. EUR 30.00 per year.

Junior Member

For those people who have completed their doctoral degree within the past three years or those who have entered the workforce within the past three years without a doctoral degree. EUR 75.00 per year.

Full Member

For those from Germany and abroad who work in chemistry and related disciplines or who are interested in chemistry and the molecular sciences. EUR 120.00 per year.

Full Double Member

For those people who belong both to the German Chemical Society and a similar association.* EUR 90.00 per year.

Unemployed Full Member

Free membership during the first year of unemployment; thereafter, reduced membership fees of EUR 15.00 per year.

Associate Member

For those from Germany and abroad who have not been educated in the field of chemistry or a related discipline and/or who are not employed in this area and who are only interested in collaborating in one of the expert groups and/or chapters of the GDCh. EUR 40.00 per year.

Sponsor

For companies, attorneys, societies, corporations and public institutions, clubs, nongovernmental organizations and governmental agencies that can and are willing to monetarily and intellectually support the aims of this society. Details about contributions will be given upon inquiry.

Senior Member

For those aged 58 years and above, after applying for this option. EUR 65.00 per year. Moreover, any senior member may opt to become a lifetime member by paying a one-time fee; no further membership payments are due thereafter.

* For list of these associations, please refer to www.gdch.de/beitrag.

REGISTRATION FORM FOR THE GERMAN CHEMICAL SOCIETY MEMBERSHIP

I hereby apply for membership in the
German Chemical Society
(Gesellschaft Deutscher Chemiker e.V.)

as

I wish to become a member of the following divisions and chapters or work groups.

The divisions and chapters charge special fees.

(www.gdch.de/fgbeitrag)

Student Member Option 1:

Yes, I would like to take advantage of the Student **GDCh-VAA*-Double Membership**. This membership is free of any additional charges. The VAA-Membership for Students is included in the GDCh membership fee of 30 Euro. This fee changes only upon completion of my university studies – at the latest, at the end of my 31st year of age and transfer to the GDCh-VAA-Junior Membership. The annual fee as GDCh-VAA-Junior Member is 100 Euro and includes all the services of both organizations (200 Euro annual membership fee as Full Member after a deadline of two years directly following Junior Membership).

or

Student Member Option 2:

Yes, I would like to take advantage of the Student **GDCh-Membership** (without membership in VAA).

I have enclosed a valid student certificate with my application.

* Association of Salaried Academics and Executives of the Chemical Industry

Member in Vocational Training

(Please enclose your trainee I.D.)

Full Member

Unemployed Full Member

(Please enclose certificate from the Unemployment Agency)

Full Junior Member

(Until 3 years after entering the workforce)

Associate Member *

(Only for people from Germany and abroad whose education was not in the field of chemistry or related disciplines and/or who do not work in this field and who are only interested in a collaboration in one of the expert groups and/or chapters of the society.)

ADUC Work Association of German University Professors of Chemistry (Membership is possible only for C3, C4, W2 and W3 professors)

Analytical Chemistry

Prerequisite for these working groups is membership in the division Analytical Chemistry

Working group-Micro- and Trace Analysis of the Elements and Element Species

Working group-Archaeometry

Working group-Separation Science

Working group-Chemical Crystallography

German Working group for Applied Spectroscopie (DASp)

Working group-Chemometrics and Laboratory Data Processing

Working group-Electrochemical Analytical Methods

Working group-Chemo- and Biochemical Sensors

Working group-Process Analytical Chemistry

Working group-Industrieforum

Applied Electrochemistry

Construction Chemicals

Biochemistry

Equal Opportunity in Chemistry (AKCC)

Chemistry – Information – Computer

Teaching in Chemistry

Chemists in Public Service

Solid State Chemistry and Material Research

Freelance Chemists and Owners of Free Independent Laboratories

History of Chemistry

Protection of Industrial Property

Chemistry of Coatings

Food Chemical Society – GDCh Division

Liebig Association of Organic Chemistry

Magnetic Resonance Spectroscopy

Macromolecular Chemistry

Medicinal Chemistry

Sustainable Chemistry

Nuclear Chemistry

Photochemistry

Senior Expert Chemists (SEC)

Environmental Chemistry und Ecotoxicology

Prerequisite for the working groups is membership in the division Environmental Chemistry and Ecotoxicology

Working group-Atmospheric Chemistry

Working group-Soil Chemistry and Soil Ecology

Working group-Chemical Evaluation

Working group-Environmental Monitoring

Association for Chemistry and Industry

Division of Detergency and Formulations

Water Chemical Society – GDCh division

Wöhler Association for Inorganic Chemistry

Work Group-Chemistry for Education in Medicine

Work Group-Chemistry and Energy

Work Group- Fluorine Chemistry

Work Group-Professional Education

Working Group on Radioanalytics and Analytics with High Intensity Radiosources

Prerequisite for this working group is membership in one of the following divisions: Analytical Chemistry, Nuclear Chemistry, Macromolecular Chemistry, Solid State Chemistry and Material Science or the Wöhler Association of Inorganic Chemistry.

Association _____ Member No.: _____

Code of Ethics of the German Chemical Society

The GDCh affirms that it and its members will defend the principles of freedom, tolerance and truth in science, in particular, with respect to upholding and promoting the reputation of chemistry as well as chemical knowledge and know-how. All GDCh-members are aware that, as scientists, they are especially responsible for the effects of their occupation on mankind and nature. The GDCh and its members support and promote a sustainable and lasting development in society, industry and the environment. They always act fully aware of their responsibility towards future generations. With regard to their work, results and effects, they observe applicable laws and international conventions and oppose the abuse of chemistry, e.g. for producing chemical weapons and addictive drugs. They pledge to uphold the truth in the development, application and dissemination of chemical knowledge and do not use dishonest methods. Members who disobey these principles damage the reputation of science and of this vocation. They may be excluded from the GDCh.

I have read this Code of Ethics of the GDCh and, with my signature below, hereby affirm to abide by this code for the duration of my membership.

I agree to allow the GDCh to contact me per email in regards to additional information and offers (This consent can be revoked any time).

Yes No

I agree to allow the GDCh to store my address and communication data for the management for use in member administration, member support and statutory tasks of the GDCh.
