Dear colleagues,

Electrochemistry is a successful series of conferences, held every other year. Starting in Gießen (2008), followed by Bochum (2010), Munich (2012), Mainz (2014) and Goslar (2016) scientists working in the various areas of electrochemistry joined for discussing cutting-edge trends and applications. The conference is jointly organized by GDCh Fachgruppe Elektrochemie, GDCh Arbeitskreis Elektroanalytische Chemie, DBG, DECHEMA, AGEF, GfKORR and DGO.

Electrochemistry will be continued in Ulm 2018. Outstanding electrochemists from Germany and from abroad will highlight research results and current trends. Four parallel sessions will cover nearly all topics of electrochemistry from fundamental science to technical applications, while the underlying theme of the conference is on Electrochemical Surface Science.

Electrochemistry – Electrochemical Surface Science: From Fundamentals to Applications. In this spirit, the organizing committee and the organizing societies invite electrochemists, scientists from other disciplines, who are interested in electrochemistry, and students to meet in Ulm. Colleagues from industry and academia, from Germany and from abroad are cordially invited to participate in the conference and to enrich its program by their scientific contributions.

Ulm is not only the city with the tallest church in the world and where Albert Einstein was born, it also has a long-standing tradition in electrochemistry, which in September 2018 will provide a fruitful forum for scientific exchange in electrochemistry.

We are therefore looking forward to hosting you here in Ulm and wish all of us a successful conference.

Prof. Dr. Timo Jacob
 Dr. Ludwig A. Kibler
 Prof. Dr. Stefano Passerini

► POSTER

In order to guarantee for a smooth start of the poster session, all posters will be put up by the conference helpers.

Therefore, we ask everyone to hand-in the poster at the "Poster collection" stand in the forum located in front of lecture hall H1 on Monday until 01.00 p.m.

Further, please remove your poster directly after the poster session on Monday evening.

► ORAL PRESENTATION

Speakers are requested to upload their presentations at the slide desk neighbouring the registration desk well in advance of their sessions, preferably on the day before. Presentations need to be compatible with Microsoft Windows 7; Powerpoint or pdf format is required.

Use of speakers' own computers is discouraged as it may cause significant delay and out-phasing of the parallel sessions.

► PUBLIC TRANSPORTATION

Upon arrival in Ulm by train, please exit the main station. The bus stop for lines 3 & 5 is located straight ahead across the main road. These two bus lines will take you to the University, where you have to exit at ‘Universität Süd’. The buses run at intervals of 10 minutes.

Transport by public buses is included in your conference ticket, which you will receive upon registration. To reach the university on the first day, please present your Conference order confirmation (plus proof of identity).

GENERAL INFORMATION

PARKING

Please find a map of the university campus on the next page. Public parking is only possible in carpark P20 (Parkhaus Mitte) and carpark P40 (Parkhaus Ost).

Please note that space is very limited in those carparks.

Due to on-going roadworks and construction in the city of Ulm and resulting detours it might be very difficult for visitors to find their way. We therefore strongly suggest using public transport.

TAXIS

It is not customary to flag down a taxi cab. Instead, there are many taxi-stops in the city and you can order a taxi by telephone. Prices are set according to a basic charge and a set price per kilometre.

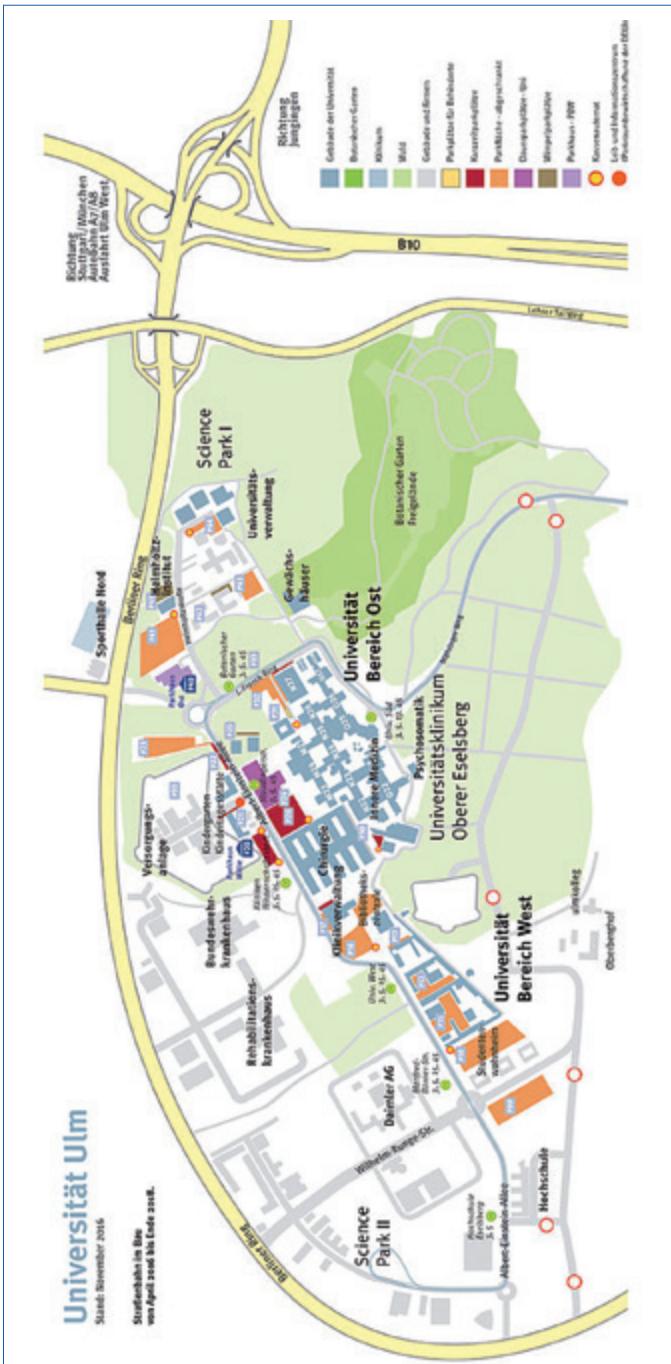

TIME ZONE

Ulm is in the Central European time zone. Central European Standard Time (CET) is 1 hour ahead of Greenwich Mean Time (GMT).

TIPPING AND ETIQUETTE

Service charges and VAT are generally included in the price. It is typical to "round up" the price by 5 – 10% to amount to a round figure.
