

Mitgliederversammlung

Die diesjährige Mitgliederversammlung unserer Fachgruppe wird im Rahmen der EUROMAR 2011 am

**Mittwoch,
den 24.8.2011
19.00– 19.45 Uhr
Hörsaal 3**

in Frankfurt stattfinden.

Als Tagesordnung ist bis jetzt vorgesehen:

1. Bericht des Fachgruppenvorsitzenden
2. Bericht aus der Arbeitsgemeinschaft ESR-Spektroskopie
3. 34. Diskussionstagung 2012 vom 17. bis 20. September in Halle
4. Neuer Flyer
5. Verschiedenes

Wünsche und Vorschläge für weitere Diskussionspunkte bitte an

erhard.haupt@uni-hamburg.de

Die Tagesordnung wird dann ggf. aktualisiert.

Wir würden uns sehr freuen, möglichst viele Mitglieder zur EUROMAR 2011 in Frankfurt begrüßen zu können.

SMASH 2011

Dear Friends:

Once again, SMASH 2011 will be held in the Alps at Le Majestic Congress in Chamonix, France. This year's Small Molecule NMR Conference will be held the 18th to 21st of September.

Registration is now officially open. While the location may be familiar to those who have attended either of the last two European SMASH meetings, there will be a number of new features to our program.

This year we will be adding upgraded talks in each of the sessions. Those interested in being considered as an upgraded talk should submit their abstract (as a poster) before June 24th.

There is a significant increase in student financial assistance and networking opportunities. Thanks to many sponsor contributions, SMASH is excited to offer a student registration of \$150 USD.

A limited number of Stipends are awarded to students and Post-Docs. Please visit the SMASH Student Page <http://www.smashnmr.org/stipends.stm> to find out more details on financial assistance and social events.

As in previous years, User Meetings will be held prior to the main meeting on Sunday. SMASH2011 check-in will open on the Sunday afternoon followed by Dinner and a Welcome Mixer. The scientific program will begin Monday morning and run through Wednesday.

The SMASH 2011 Program Chairs have put together a variety of sessions/workshops/tutorials:

- * Optimizing NMR in the Modern Laboratory
- * Student/Post-Doc Session
- * University vs. Industry: Challenges for Doing Innovative Science (Workshop)
- * Quantification in NMR Without Using Internal References (Tutorial)

- * Critical Applications of NMR in Pharmaceutical Development
- * Automated Structure Verification and Elucidation (Workshop)
- * Optimization of Small Molecule NMR Experiments (Tutorial)
- * Further Progress in Solid State NMR
- * Enhancements for Physical Organic Chemistry
- * NMR Solutions to Combating Counterfeits and Achieving Quality
- * Gala Dinner Speaker: Professor Ray Freeman

Please visit the SMASH Program webpage for speaker details.

Important Dates include:

24th June : Deadline for Consideration as an Upgraded Talk

26th June: Student Stipend Applications Deadline

12th July: Notification regarding upgraded talks and stipends

30th July: Poster Abstract Submission Deadline

12th August: Late Registration Begins

9th September: Registration Closes

Please feel free to contact smashnmrorg@gmail.com for any additional information or questions.

Looking forward to seeing you in Chamonix!

SMASH NMR Organizing Committee

Zu guter Letzt:

MARS-Bilderrätsel: wer ist's ???
(Auflösung im nächsten MARS)
