

18th International Conference on Chemistry and the Environment (ICCE 2023)

ICCE 2023

VENICE

June 2023
11 - 15

[Abstract submission](#) and [Registration](#) are NOW OPEN!

The Local Organizing Committee is keen to announce that ICCE 2023 will be held at the Ca' Foscari University of Venice (Italy) between 11th and 15th June 2023. The Conference will provide a unique and inspiring information and communication platform for environmental scientists and a forum of professional exchange with colleagues and fellows in environmental chemistry and engineering, analytical chemistry, toxicology, geosciences, and other related interdisciplinary fields (e.g., environmental risk assessment and management).

Preview of topics expected at ICCE 2023:

- Analysis & modelling of environmental pollutants
 - Air, water and soil pollution
 - Water & wastewater treatment
 - Nanomaterials
 - Micro- & nano- plastics
 - Environmental risk & impact assessment
 - Priority & emerging pollutants
 - Biotransformation of organic pollutants
 - Impacts of climate change on chemicals
 - Green chemistry & eco-toxicology
 - Circular economy, LCA & sustainability
 - Environmental impacts on cultural heritage
 - Chemicals in marine, coastal, & transitional environments
 - University education
- ... and other important topics.

In addition, several satellite events will be associated with the Conference for in-depth discussion, seminars and workshops on selected and highly relevant topics (must be registered separately): See <https://icce2023.com/satellite-events/> for further information.

Important dates

03.03.2023	Abstract submission deadline
12.04.2023	Abstract author notification
30.04.2023	Early registration deadline
07.06.2023	Regular registration deadline

Please visit our Conference website at www.icce2023.com for further information
