TAGUNGSZENTRUM

Third Late Summer Workshop
„Basics in water treatment
processes”

October 4th to October 6th, 2006

Schloss Maurach, Lake Constance

INVITATION

The *Third Late Summer Workshop* will discuss the state of research and knowledge on the basics of water treatment processes. It will feature invited lectures of distinguished scientists in the fields of

Ion Exchange

W. Hoell, *Research Centre Karlsruhe, D*

Adsorption

E. Worch, *Dresden University of Technology, D*

Oxidation

U. von Gunten, *EAWAG Dübendorf, CH*

High Pressure Membranes

J. Drewes, *Colorado School of Mines, Golden, USA*

Low Pressure Membranes

R. Ben Aim, *INSA Toulouse, F*

Bankfiltration and Soil Aquifer Treatment

G. Amy, *UNESCO-IHE Institute for Water Education, NL*

Biofiltration

P. Huck, *University of Waterloo, CAN*

Disinfection

M. Prevost, *Ecole Polytechnique, Montreal, CAN*

Coagulation and Flocculation

J. Edzwald, *University of Massachusetts, Amherst, USA*

Filtration

D. Lawler, *University of Texas, Austin, USA*

Significant time will be allocated to discussions.
Attendance will be limited to 35 persons.

INVITATION

About twenty-five fellowships covering full board accommodation will be made available for young researchers.

Concept

The *Third Late Summer Workshop* has been established by the "Wasserchemische Gesellschaft" (President: Prof. Martin Jekel) to provide a forum for young chemists focused on water treatment. This interdisciplinary approach should aid the development of optimum solutions for future water treatment processes research.

Conference Character

The format of the *Third Late Summer Workshop* will be of the Gordon Research Conference type. Discussion and active participation will be integrated part therein.

Special consideration will be given to young scientists. The "Wasserchemische Gesellschaft" feels responsible for development of the rising scientific generation and wishes to encourage individuals to remain in research and active in the development of this field.

Prominent scientists will address the above topics in invited lectures, followed by selected contributions as participant lectures.

Contribution of Papers and Participation

Contributions from the scientific community to the topics of the workshop are welcome. Especially highly qualified researchers from Europe should consider presentation of their research results at this workshop.

Contribution will be possible either in oral form (20min) or as posters to be discussed in special sessions.

INVITATION

Selection of contributed papers will be made by a scientific committee on the basis of the submitted abstracts: Decision criteria will be the scientific quality and relationship to the theme of the conference.

In order to enable participation of young researchers (38 years or younger) the fellowships covering full board accommodation will be made available.

Participants receiving a fellowship are expected to be present during the entire workshop.

All persons wishing to attend this *Third Late Summer Workshop* must register via the web page:

www.wasserchemische-gesellschaft.de/Maurach

and submit their abstract of 2-4 pages (rtf-file) online to:

wg@itu201.ut.tu-berlin.de

Please register early, but not later than June 30, 2006. Participants selected will be informed by July 31, 2006.

Please note: Due to the nature of the workshop, participation must be confirmed by the organizers. No provisions for accompanying persons of participants have been made.

Participation Fees

None

Accommodation

Room reservation will be made at Schloss Maurach and surrounding hotels. Appropriate forms for reservation will be mailed to all participants selected by July 31, 2006.

The Workshop will be held at Schloss Maurach, a small restored castle situated directly at beautiful Lake Constance, with its shores in Germany, Austria and Switzerland.
